

We became frustrated with how AI and Data Science buzzwords were abused so we started **COMPUTD**, a Data Science partner **YOU CAN TRUST!**

**COMPUTD** aims to demystify and make Data Science and Artificial Intelligence more accessible to businesses!

## The COMPUTD Data journey

COMPUTD helps you understand what your company needs to get the most out of your data and how to move towards a data driven organization! COMPUTD follows a tried journey, where our specialists explore, report, train, develop and consult your business on what you need!

### Analytics & Exploration

We explore together the possible digitisation use-cases at your business, be that Data Science or AI related.

### Reporting & Dashboarding

Using data mining, forecasting and machine learning techniques, we provide insights into your data.

### Training & Education

With clear insights, we train your organisation on how to leverage the potential of AI and Data Science.

### End to End AI solutions

Our team tailors Machine Learning and AI solutions that fit and benefit your exact business goals.

### Strategic consulting

Our Data Scientist help you design your road-map towards data driven decision making.

# DATA SCIENCE AS A SERVICE

Not all companies have the need or the capacity to keep complete data teams in house who can develop, deal with unexpected load, innovate and keep up with the day to day operations.

COMPUTD offers Data Science as a Service to all businesses ready to take on Digitalization!
