

What's your data worth?

Prime your business
for data driven innovation

*Prime your business today for the
innovation of tomorrow!*

Do you know the real value of the data in your company?

COMPUTD helps you understand what your company needs to get the most out of your data. Get to know what data is vital to enable data driven decision making and become aware of the many pitfalls that digitalization brings.

As-is analysis

- What is the current situation?
- Is the data quality up to standards?
- Are there any hidden data sources?
- What external sources are of interest?

Minimal Viable Data (MVD)

- What information is needed to achieve goals of the business?

The Perfect Data Scenario

- What additional sources can help?
- How big is the impact of these sources?

In 5 half-days our data scientist will **deep-dive into your data** and give you the **insights** and **guidance** to start your data driven journey.

3 of these half-days are spent by the data scientist **on-site** to evaluate the data and align with field experts on their findings. The rest is dedicated to writing an **extensive report** on your data and helping your business with the next steps. This includes an interactive session in order to **ensure the findings are clear and understood**.

Key Benefits

The quality of your data determines the success rate of your Data Science and AI projects. Our data scientist will give you an insight in how prepared your company is for data driven innovation. Based on these findings we can advise our partners on next steps to get more out of their data.

Overview

- Usability of your current data
- Discover your **hidden data**

Strategy

- How to **maximize your data** value
- **Avoid data problems**

Realize

- **Exploit your data**
- Accurate data planning, **avoid setbacks**

Report

The report describes the current situation and steps that need to be taken to get to a minimum required state. Where possible the data scientist will give pointers on low cost adjustments that bring the most value to the company and its data.

Consult

We provide you with an interactive session where the findings in the report are presented. This allows stakeholders to ask any questions that may arise.

Pricing

It is COMPUTD's mission to make data driven innovation accessible and understandable. We promise to keep things simple and affordable.

Following this philosophy we have priced this service at

€ 2.500
- (excl. VAT)
